Topics for November JCIC Meeting

The following topics will be discussed at the JCIC meeting on November 16:

- **Updated Drug Codes:** There are several drugs of potential abuse in the Client Data Set that need to be reclassified based on use and several that are commonly abused but are not mentioned in the drug list. Because these data are used to help estimate treatment need, having up-to-date listings is important. Please see the appended list (pages 2 - 4) for new and changed items (listed in ***bold italics***) for consideration. If you have questions, please contact Lisa Walls (Lisa.Walls@ky.gov, 502-564-4456 ext. 4463) or Robert Walker (Robert.Walker@uky.edu, 859-257-6623).
- **Addiction diagnostic codes:** SA is considering accepting the diagnosis code "V69.2 – High-Risk Sexual Behavior" as an indicator for sexual addictions. They also would like to discuss existing diagnostic codes for eating addiction and gambling addiction.
- **Method of reporting diagnostic codes for event records:** Diagnosing an individual is usually a dynamic process. Our current system tends to diagnose the client rather than the service. The diagnosis assigned when the treatment plan is completed becomes stagnant, being updated annually at best. In primary care, the medical provider will put an ICD code or diagnosis on the billing form that is appropriate for that visit. If the treating diagnosis could be identified on the billing form at each service, then the client's diagnostic information could be kept more up-to-date. This would also assist in identifying co-occurring disorders. MHSA would like to discuss how the diagnosis codes are entered for each service event and whether the current method would allow for coding co-occurring disorders.

Kentucky County Quiz!

For fun, and in honor of Halloween, see if you can answer the following questions with Kentucky county names (answers will appear next month).

Which Kentucky county has a name that...

1. ...is a large, painful sore?
2. ...all of us will be placed in some day?
3. ...you will do when frightened?
4. ...is a method of strangulation?

Answers to last month's quiz:

Which Kentucky county ...

1. ...is at the border of Indiana and Ohio? **Boone**
2. ...is the eastern-most county? **Pike**
3. ...is where Tennessee meets Ohio? **McCracken** (at the Ohio River and Tennessee border)
4. ...was the home of the National Scouting Museum of the Boy Scouts of America? **Calloway**
5. ...is the site of the first permanent settlement in Kentucky? **Mercer**
